

Gemar[®]
Lifting the Moment

Benvenuto

Welcome to the Gemar 2020 Catalogue, we have balloons in more than 100 shapes, sizes and colours waiting for you as well as brand new, on trend, collections and innovative designs.

At Gemar we're passionate about lifting every moment and creating memories that last, spreading the joy of balloons around the globe as we work with our partners and customers worldwide. As a part of the Gemar family we hope you will enjoy the collections you find in these pages and that you will join with us as we seek to bring happiness and delight to every occasion.

The world around us is changing as more and more people become aware of environmental concerns, particularly the problem of plastic waste. We are very proud that we have always used caoutchouc natural rubber latex in our manufacturing process and would like to invite you to "Go Green with Gemar," enjoying our plastic free, sustainable and premium quality balloons.

This year will mark a very special anniversary for us here at Gemar. Although the Rocca family has a long history in Italian balloon manufacturing, Gemar itself was founded in 1990. Which means this year will see our 30th birthday.

It's sometimes hard to believe just how far Gemar has come in that time, growing into Europe's largest manufacturer of natural latex balloons with a client base spread around the globe and a passionate community of fans ranging from budding Balloonistas, proud Ambassadors and our beloved Gemar Masters. We have worked to create a movement, spreading the joy of ethical and sustainable balloons to hundreds and thousands of people.

Benvenuto nel Catalogo Gemar 2020! I nostri palloncini ti aspettano con più di 100 forme, dimensioni e colori diversi, insieme a prodotti innovativi in linea con gli ultimissimi trend del mercato.

La nostra passione è celebrare il momento e creare ricordi che durino nel tempo, diffondendo la gioia dei palloncini ovunque, grazie a partner e clienti in tutto il mondo. Come parte della famiglia Gemar speriamo che le collezioni che troverai in queste pagine siano di tuo gradimento e che ti unirai a noi nel cercare di portare gioia e felicità in ogni occasione.

Il mondo sta cambiando in quanto un numero di persone sempre maggiore ha sviluppato una coscienza ambientale, soprattutto per quanto concerne il problema dei rifiuti di plastica. Siamo orgogliosi di aver sempre utilizzato caucciù naturale nel nostro processo di fabbricazione e ti invitiamo a partecipare alla nostra campagna "Go Green with Gemar," grazie ai nostri palloncini di alta qualità, sostenibili e privi di plastica.

Quest'anno segnerà un anniversario molto speciale per noi qui a Gemar. Sebbene la famiglia Rocca abbia una lunga storia nella produzione di palloncini italiani, la Gemar è stata fondata nel 1990. Ciò significa che quest'anno vedrà il nostro trentesimo compleanno.

A volte è difficile credere fino a che punto Gemar sia arrivata a questo momento, diventando il più grande produttore Europeo di palloncini in lattice naturale con una base di clienti sparsi in tutto il mondo e una comunità di appassionati Balloonista, Ambassador e Maestri. Abbiamo lavorato per creare un movimento, diffondendo la gioia di palloncini etici e sostenibili a centinaia e migliaia di persone.

Here's to lifting the moment together in 2020!

Celebriamo il momento insieme nel 2020!

GRAZIE
The Gemar Team.

Gemar®

Lifting the Moment

Tucked among the hills in the heart of Italy you will find Casalvieri, a small town that has been home to the Rocca family for over four generations and the site of Italian balloon innovation for just as long. Gemar is very much a family business, and our mission is to inspire and bring balloon joy to every occasion.

There are six key themes that inform everything we do, now and in the future.

TRADITION

A passion for balloons has been passed down through the Rocca family for generations. Now supported by a dedicated team, we work to build on that heritage for future generations.

INNOVATION

We are never content and always looking for ways to improve our products and stand out from the crowd.

CREATIVITY

It's important to us to share the joy of balloon art worldwide and we are always looking for ways to inspire and support balloon artists, from the newest novice to our balloon art masters.

PEOPLE

At Gemar we really do feel that we are a global community and extended family, from our most distant customer to the workforce here in Casalvieri. We aim to enrich the lives of everyone who is touched by Gemar.

RESPONSIBILITY

Our business is founded on a strong ethical code and we firmly believe that this helps our business grow. We have a strong sense of social responsibility and believe in sustainability.

QUALITY

When you choose to buy from Gemar you know that you'll get a top quality product, made from premium materials using the latest technology. Our balloons aren't just sustainable and ethically produced, they also achieve the highest standards for long lasting product performance.

Incastonata tra le colline nel cuore dell'Italia, la cittadina di Casalvieri è la culla della famiglia Rocca da oltre quattro generazioni e la casa italiana dell'innovazione nel settore dei palloncini da altrettanti anni. Gemar è un'azienda familiare e la nostra mission è ispirare e portare la gioia con i palloncini in ogni occasione.

Sei sono i pilastri chiave che raccontano la nostra storia, quello che stiamo facendo ora e quello che faremo in futuro.

TRADIZIONE

La passione per i palloncini attraversa la famiglia Rocca da generazioni. Con l'aiuto di un team dedicato, lavoriamo per capitalizzare il nostro patrimonio per le future generazioni.

INNOVAZIONE

Il segreto è non accontentarsi mai e cercare sempre nuovi modi per migliorare i prodotti e distinguersi dagli altri.

CREATIVITÀ

È importante condividere la gioia della balloon art in tutto il mondo e siamo costantemente alla ricerca di nuove modalità per ispirare e supportare i balloon artist, dai neofiti ai maestri della balloon art.

PERSONE

Noi di Gemar siamo una comunità globale e una famiglia allargata che va dai clienti più lontani alla forza lavoro di Casalvieri. Il nostro desiderio è migliorare la vita di tutte le persone che entrano in contatto con Gemar.

RESPONSABILITÀ

La nostra attività si fonda su un solido codice etico e siamo fermamente convinti che questo aiuti a far crescere il nostro business. Abbiamo un forte senso di responsabilità sociale e crediamo nella sostenibilità.

QUALITÀ

Quando un cliente decide di comprare i palloncini Gemar, può essere certo di acquistare un prodotto di altissima qualità, fabbricato con materiali ottimi e con le tecnologie più avanzate. I nostri palloncini non sono solamente prodotti sostenibili fabbricati eticamente, ma rispettano gli standard prestazionali più severi a lungo termine.

"We make more than balloons we make moments"

We make more than balloons, we make moments

Lifting the moment and protecting the planet

At a time when the world is facing a growing plastic waste problem it is important to know that our balloons are not plastic. The simple sight of a balloon brings joy and happiness to people of all ages, we at Gemar are passionate that spreading that joy around the globe can be environmentally friendly, sustainable and ethical.

Renewable and Sustainable

Gemar uses responsibly sourced natural rubber latex, also known as caoutchouc, a milky sap harvested from the Hevea Brasiliensis rubber tree in the same way that maple syrup is tapped from maple trees. This natural and renewable material is preserved throughout the manufacturing process and biodegrades at about the same rate as an oak leaf.

Don't let go

Even though our balloons are biodegradable, litter is still unsightly and poses a very real danger to wildlife. Since everything that goes up must eventually come down we don't support balloon releases, instead we encourage our customers to use balloon weights and enjoy their balloons safely. After use it is important that all balloons are popped and disposed of responsibly.

Creating change

Gemar is part of the collaborative online platform, SEDEX a not-for-profit organisation dedicated to improving the ethics of global supply chains. We are passionate about driving improvements throughout the industry by working together with this global community.

Gemar customers know that all our products are created to the highest standards, both in terms of quality and our dedication to ethical and environmental standards. Our pride and passion in this is also represented by the award of the ISO 9001 and 14001 certifications. These awards are the validation of the work we do to each day ensure our standards and ethics remain high.

Gemar is committed to improving industry standards and promoting best practices. We are proud to be an active member of the European Balloon & Party Council and Party Safe promoting the responsible use of balloons.

Celebrare il momento, proteggendo il pianeta

In un'epoca in cui il mondo sta affrontando il problema dei rifiuti in plastica, è importante sapere che i nostri palloncini non sono fatti di plastica. La semplice vista di un palloncino è fonte di gioia e felicità per le persone di qualsiasi età e noi di Gemar crediamo fermamente che diffondere questa gioia in tutto il mondo possa avvenire in maniera ecologica, sostenibile ed etica.

Rinnovabile e Sostenibile

Gemar utilizza lattice di gomma naturale approvvigionato in maniera responsabile, conosciuto anche come "caucciù", una linfa lattiginosa che si raccoglie dall'albero della gomma Hevea Brasiliensis, proprio come lo sciroppo d'acero. Questo materiale naturale e biodegradabile si preserva durante tutto il processo di fabbricazione e si biodegrada praticamente alla stessa velocità di una foglia di acero.

Non farlo volar via

Anche se i nostri palloncini sono biodegradabili, i rifiuti sono sempre brutti da vedere e costituiscono un vero pericolo per gli animali. Dato che tutto quello che sale alla fine deve scendere, Gemar non promuove i rilasci di palloncini in cielo, al contrario, incoraggiamo i nostri clienti a usare i pesi e godersi i nostri palloncini in tutta sicurezza. Dopo l'uso, è importante che scoppiate tutti i palloncini e provvediate al loro smaltimento in maniera responsabile.

Creare il cambiamento

Gemar fa parte della piattaforma collaborativa online SEDEX un'organizzazione no-profit che si dedica a migliorare il codice etico delle catene di fornitura globali. La nostra mission è quella di promuovere miglioramenti nel nostro settore lavorando insieme a questa comunità globale.

I clienti Gemar sanno che tutti i nostri prodotti sono fabbricati nel rispetto degli standard più severi, sia in termini di qualità che per la conformità agli standard etici e ambientali. Il nostro orgoglio e la nostra passione sono testimoniati dall'ottenimento delle certificazioni ISO 9001 e 14001. Queste certificazioni attestano il lavoro che noi facciamo ogni giorno per garantire che i nostri standard e principi etici rimangano elevati.

Gemar s'impegna ogni giorno per migliorare gli standard di settore e promuovere le best practice. Siamo orgogliosi di essere un membro attivo di European Balloon & Party Council e di Party Safe per promuovere un uso dei palloncini responsabile.

History

A story of Italian passion, pride and family.

In 1888 a four year old named Angelo Rocca emigrated to France, with his family, to help his balloon artisan brother-in-law. The experience sparked a passion for balloons in the young boy, and it is still burning bright four generations later.

Angelo's rise was astounding, at the age of 15 he was managing a balloon workshop and at 18 he returned home and became founder of the first latex balloon manufacturing company in Italy, eventually expanding to sell handmade balloons around the world.

While each balloon had to be carefully produced, growth was always limited. Until one of Angelo's sons, Genesio, transformed production when he bought the first automatic dipping line to manufacture latex balloons.

Sadly Genesio passed away in a tragic car accident in 1977 but his oldest son, named Angelo after his Grandfather, took the reins. In 1990 Angelo officially founded GEMAR and still leads the company today, along with his son Genesio.

The combination of skills, expertise, heritage and technology that has been passed down through four generations has led Gemar to become a global leader in the industry and Europe's largest manufacturer of natural rubber latex balloons.

Una storia italiana di passione, orgoglio e valori familiari.

Nel 1888 un bimbo di quattro anni di nome Angelo Rocca emigra con la sua famiglia in Francia per aiutare il cognato, un produttore artigianale di palloncini. Questa esperienza accende nel ragazzo la passione per i palloncini, una passione la cui fiamma continua a brillare quattro generazioni più tardi.

L'avventura professionale di Angelo è sorprendente: all'età di 15 anni gestisce un laboratorio di palloncini; a 18 anni torna in Italia e fonda la prima fabbrica di palloncini in lattice italiana, portando le vendite dei palloncini fatti a mano in tutto il mondo.

La grande cura dedicata alla fabbricazione di ogni palloncino costituisce un fattore limitante per la crescita. Fino a quando Genesio, uno dei figli di Angelo, non trasforma la produzione, acquistando la prima linea automatica per la fabbricazione dei palloncini in lattice.

Genesio muore tragicamente in un incidente stradale nel 1977, e suo figlio maggiore, Angelo, che porta il nome del nonno, prende le redini dell'azienda. Nel 1990 Angelo fonda ufficialmente GEMAR e ancora oggi è alla guida dell'azienda, insieme al figlio Genesio.

La combinazione di abilità tecnica, esperienza, patrimonio e tecnologia che ha attraversato quattro generazioni ha consentito a Gemar di essere leader globale del settore e diventare il fabbricante di palloncini in lattice di gomma naturale più grande d'Europa.

Tips

While using a helium tank and the content of helium decreases, the filling pressure will also go down to a certain extent that the balloons cannot be filled properly. In this case we recommend to pre-stretch the balloons by inflating at first with air and then to proceed to inflate with helium so the balloon is less resistant and less pressure is required to fill the balloon properly. We recommend the use of ULTRA HIFLOAT for helium filled balloons. ULTRA HIFLOAT balloon flight extender can increase the flying times of latex balloons up to 25 times longer than untreated balloons.
